

INDEX

TO VOL. LIV (VOL. XII, FOURTH SERIES), OF THE
AMERICAN JOURNAL OF PHARMACY.

Abrus precatorius, constituents and effects.....	251
Acid abric, preparation and properties of.....	251
aconitic, in sugar canes.....	370
arsenic, non-reduction of, by oxalic acid.....	533, 634
benzoic, testing for origin of.....	56, 242, 409
boric, antiseptic properties of.....	141, 528
poisoning by.....	87
preparations of.....	528
solubility in glycerin, (See also Boroglyceride).....	537
carbolic, cause of reddening of.....	375
impurity in, (metals).....	309
poisoning by.....	425
chromic, use for removing warts.....	84
cinnamic, antiseptic properties of.....	141
citric, detection of free, in wine.....	453
copaivic, commercial, origin of.....	220
gallic, soluble in potassium citrate.....	87
gelsemic, physiological action of.....	341
preparation.....	337, 389
relation to aesculin.....	338, 390
glycocholic, properties of.....	599
relative proportion in bile.....	517
hydrochloric, preparation from earthy chlorides.....	310
hypophosphorous, specific gravity and saturating power.....	100, 138
lactic, preparation from sugar.....	216
malic, in Australian currant.....	73
metaphosphoric, test for albumen.....	89
myronic, in turnip seeds.....	77
oxalic, production from paraffin oils.....	69
reducing action upon arseniates.....	634
pernitric, preparation of.....	395

Acid phosphatic, nature of.....	527
phosphoric, preparation with moist air.....	526
pyrogallie, medical use of.....	425
permanent aqueous solution of.....	16
quebrachitanic, preparation and properties of.....	74
quercotannic, preparation and properties of.....	118
salicylic, detection of in food.....	443
in violets.....	10
succinic, in bark of <i>Morus alba</i>	456
sulphuric, freezing point of.....	68
tannic, administration with albumen.....	118
estimation of, with potassium permanganate.....	600
tartaric, detection of free, in wine.....	452
taurocholic, relative proportion in bile.....	517
umbellulic, properties of.....	626
Acids fatty, detection of fat in.....	596
Aconite, preparations of, relative strength and doses of.....	559
root, characters of.....	534
collection and supply of, for medicinal use.....	556
of commerce.....	334
Aconitine, behavior to potassio-bismuth iodide.....	497
differences in properties of.....	172
poisoning by.....	171
oleate, preparation and use of.....	572
varieties and strength.....	560, 566
<i>Aconitum paniculatum</i> , use of, in preparing extract.....	334
Adonidin, preparation and properties of.....	497
Adonis vernalis, active principle of.....	497
Adulterations, prevalence of.....	528
Æsculin, physiological action of.....	391
reactions of.....	339, 390
Æsculus hippocastanum, constituents of leaves.....	626
Agaricus albus, use and dose of.....	427, 472
<i>Aitken Rob.</i> , The microscope; hints to beginners.....	253
Alabama Pharmaceutical Association.....	263, 326, 640
Albumen, ferrated, preparation and properties.....	484
test for metaphosphoric acid.....	89
Albumenoids, constitution of.....	578
Alcohol, deodorization of, by electrolysis.....	215
detection of water in.....	285
distribution of, in nature.....	373
purification of.....	504
solubility of chemicals in.....	522
Alcoholic menstrua, tables of strength.....	209
Alcohols, polyhydric, reaction with glycerin.....	537
Alge, iodine-yielding, use in pharmacy.....	124
Alkaline citrates, compounds with insoluble salts.....	455
Alkaloids, color reactions of.....	17
with zinc chloride.....	84
estimation of, as picrates.....	58
from cadavers and plants, distinction.....	221
potassio-bismuthic iodide, as a reagent for.....	358, 490
reduction of, by potassium ferrieyanide.....	222
Allantoin in plane tree leaves.....	626
Aloes, reactions of.....	357
Alpinin, properties of.....	288
Alsine media, analysis of.....	515
Alum, ammonia, process for preparing.....	464
burned, use of, in ague.....	629
Aluminium acetate, reactions of.....	487
palmitate, use of.....	371

Alumni Associations of Colleges of Pharmacy :	
Louisville	202
New York	261, 478
Philadelphia	90, 200, 587, 633
Amber, artificial, tests for	459
American Pharmaceutical Association, thirtieth meeting	379, 428, 518, 542
Ammonium benzoate, use of in dysentery	426
iodide, commercial, examination of	482
preparation of	482
Amygdalus communis in California	175
Amyl nitrite, use of, in ague	427
Anamomis fragrans, products of	348
Anemonin, effects and reactions	130
Angelica, cultivation in France	11
Aniline, preparation of	435
Antimony chloride, preparation of	116
Antiseptics, action and relative strength of	582
study of	605
Apomorphia as an expectorant	518
Aqua traumatica Sendneri	308
Aralia spinosa, analysis of	433
Araliin, preparation and properties	434
Arctostaphylos glauca, histological examination of leaves	514
Argentine Republic, new drugs from	134
Arnica flowers, falsification of, with Inula	458
use in furuncles	88
Arsenates, reducing action of oxalic acid	533, 634
Arsenic, copper test of	533
detection in presence of tin	227
Asclepias tuberosa, constituents	5
Ash, estimation of	356
Asparagin in leaf-buds	626
Aspidosamine, preparation and properties	367
Aspidospermatine, preparation and properties	367
Aspidospermine, preparation and properties	366
reactions of	393
Associations, Pharmaceutical, Local and State	205
Astragalus mollis, effects of	630
Atropine, behavior to potassio-bismuth iodide	491
in belladonna root, relation to starch	457
preparation of	374
reaction of	402
Austria, pharmaceutical study in	323
Baccharis cordifolia , poisonous properties of	134
Balsam Peru, behavior to chemical reagents	609
examination for purity, qualitative	613
examination for purity, quantitative	614
solubility in different menstrua	608
use for ulcerations	89
<i>Barbieri, J.</i> , see <i>Schulze, E.</i>	
Barringtoniæ, properties of	345
<i>Barth, M.</i> , and <i>J. Nesster</i> , analysis of wine	444
<i>Basiner, A.</i> , Poisoning with ranunculus oil, ammonia and cardol	130
Bayrum, see <i>Spiritus Myrciæ</i>	
Beer, examination for adulterations	160
Belgium, pharmaceutical study	468
Belladonna, alkaloidal value of plant	530
root, adulteration with <i>Medicago sativa</i>	235
amount of atropine in	457
Benzoin, behavior to chemical reagents	610

Benzoin, solubility of, in different menstrua	608
Benzol, inhalations in whooping-cough	518
Berberis aquifolia, histological examination of root	512
Beringer, G. M., Hypophosphorous acid	100
Bernhard, C. H., <i>Celastrus scandens</i>	1
Betula, constituents of leaves	626
Bignonia Caroba (Copaia), constituents of	135
nodosa, properties of leaves	136
purgans, properties of leaves and root	136
Bile, chemistry of	517
reaction with hydrochloric acid and ether	599
Bismuth and potassium iodide as a reagent	358
preparation as a reagent	490
oxide, behavior of, to ozone	618
oxy-iodide, new	535
preparations, commercial, purity of	526
subnitrate, preparation under different conditions	593
Blackboard coating	64
Blood stains, examination of	286
Boa, P., Confection of sulphur	167
Boillat, F., Study of antiseptics	605
Borax, see Sodium borate	
Boroglyceride, preparation and properties of	352
Bradford, J. M., Bark of <i>Fraxinus americana</i>	282
Bradford, S. S., Cottonseed oil, its uses and detection	481
Brassica rapa, seeds contain myronic acid	77
Brazil nuts, origin	346
Brazilein, new compounds of	398
Bread, estimation of ergot in	225
British Pharmaceutical Conference, meeting of	529
Brownen, G., Action of digestive ferments upon drugs	574
Brucine, behavior to potassio-bismuth iodide	491
reactions of	393
Buchner, Geo., Ferrated albumen	484
Butter, artificial, detection of	596
examination of	399
testing of, for foreign fats	596
Cacao, soluble, preparation of	65
Cadmium, detection of, in presence of copper	356
Caffeine, double salts with organic acids, preparation and properties	496
hypodermic injections of	473
percentage in guarana	523
preparation from xanthine	218
salts with mineral acids, properties of	495
with organic acids, non-existence of	494
Calcium glyceroborate, antiseptic properties of	507
phosphate, suspended in water	116
California Pharmaceutical Society	140
College of Pharmacy	634
Cameron, C. A., Quinine iodate and bromate, and activity of superoxidized molecules	414
Camphor, adulteration and supply of	554
dibromated, two isomeric modifications of	509
dichlorinated, preparation and properties	511
monobromated, properties of	509
toxic effects	119
Camphora officinarum, analysis of leaves	515
Campomanesia, species, products of	350
Capoche bark, use of	333
Carbon, bisulphide, purification of	285

Carbon, oxychloride, produced in chloroform.....	419
Cardol, effects and reactions of.....	132
Caroba leaves, see Jacaranda.....	
Carobin, properties of.....	135
Carrot, origin of cultivated.....	585
Caryophyllus aromaticus, amount of tannin in.....	388
products.....	347
Castor, with oil sacs.....	192
Catechu, amount of tannin in.....	388
Catgut, antiseptic, with oil of juniper.....	87
Caulosterin, properties of.....	626
Cazeneuve, P., and Didelot, Dichloro camphor.....	511
Celastrus scandens, constituents.....	1
Cellulose, nitration of.....	622
Cement, acid proof.....	441
Celtis Tala, use of.....	134
Ceratum Galeni, formula.....	168
Cervello V., Active principle of Adonis vernalis.....	497
Cestrum pseudoguina, use of.....	134
Chamelauciae, properties of.....	346
Cheken, description and use of.....	351
Cherry, Cayenne, origin of.....	349
Chelidonium majus, constituents.....	251
Chia, description and uses of.....	227
history of.....	229, 261, 585
Chicago College of Pharmacy.....	325
Chimaphila, amount of tannin in.....	388
Chinoline compounds, solubility of.....	118
properties of.....	81
tartrate, properties.....	57, 119
Chloral hydrate, camphorated, therapeutic use of.....	86
large doses of.....	119
Chlorides, metallic, comparative poisonous effects of.....	14
Chloroform, antiseptic properties of.....	142
decomposed by nitric acid.....	333
detection of, in poisoning by.....	158
effect of ozone on.....	419
effect of permanganate on.....	333, 597
impurities in, detection and removal of.....	597
Chlorophyll, chemistry of.....	186
Chocolate, examination of.....	226
Cholesterin in plants.....	626
Chondrus crispus contains iodine.....	125
Christensen, A., Quassiin.....	499
Chromic salts, behavior of, to ozone.....	618
Chromium acetate, reactions of.....	487
Cicutine, behavior to potassio-bismuth iodide.....	491
Cinchamidine, new cinchona alkaloid, properties.....	76, 361
Cincholine, preparation and properties.....	365
Cinchona alkaloids, estimation of (Prollius).....	59
total (DeVrij).....	290
from cuprea bark.....	75
new.....	361
bark, process for assaying.....	548
soft Columbian.....	333
cultivation in Guatemala.....	431
pharmaceutical preparations of.....	536
red, origin, varieties, composition.....	28
Cinchonamine from cuprea bark, properties.....	76
Cinchonic red, removal of stains of.....	628
Cinchonine, behavior to potassio-bismuth iodide.....	491

Cincinnati College of Pharmacy.....	91, 260, 428
Cinnamon, amount of tannin in.....	388
<i>Clabaugh A.</i> , <i>Asclepias tuberosa</i>	5
Cobalt salts, behavior of, to ozone.....	618
<i>Coblentz V.</i> , Jalap and powdered Jalap.....	385
Solubility of Morphine Sulphates.....	436
Coca, a cure for morphinism.....	84
Codeine, behavior to potassio-bismuth iodide.....	491
preparation from morphine.....	71, 410, 412
reaction with sulphuric acid and phenol.....	598
Coffee, wild, of Jamaica.....	349
Cola nuts, constituents of.....	358
Cold cream, formula for.....	168
<i>Colletia ferox</i> , wood, properties of.....	134
Collodium for corns.....	518
styptic.....	425
Collyrium of the Benedictines.....	244
Cologne water, antiseptic, formula.....	67
Colophony, behavior to chemical reagents.....	610
solubility in different menstrua.....	608
Colors, preparation from resorcin.....	69
<i>Condalia lineata</i> , use of.....	134
Conessi bark, origin of.....	301
Confectio Sulphuris, improved formula.....	167
Conicine, preparation and properties of.....	359
salts, properties of.....	360
Conium, proper dose of.....	584
Connecticut Pharmaceutical Association.....	139, 478
Copaiba, analysis of.....	219
behavior to chemical reagents.....	610
solubility in different menstrua.....	608
Coppering, process for.....	396
<i>Cornus florida</i> , amount of tannin in.....	388
Corrassa compound.....	207
Cotton, chloro-carbolated, for toothache.....	86
<i>Couroupita guianensis</i> , fruit of.....	346
Creasote, commercial, testing of.....	526
<i>Cripps, R. A.</i> , History of Citrine Ointment.....	618
Cuprea bark, alkaloids from.....	75, 364
botanical source of.....	292
Curaçao cordial, formula.....	17
Curare, artificial.....	430
Curcuma, constituents of, and derivatives.....	398
Cybastax antisiphilitica, properties of.....	136
Decoction of laminaria	127
Delphinine, reaction with sulphuric acid and phenol.....	598
Denmark pharmaceutical study in.....	320
<i>De Vrij, J.</i> , Estimation of total Alkaloids in Bark.....	290
<i>De Vrij, J. E.</i> , honors to.....	431
Dialysates, preparation.....	39
Diastase, testing for, in extract of malt.....	524
Diastasiometry of pancreas.....	25
<i>Didelot</i> , see <i>Cazeneuve, P.</i>	
Didymium, new metal in.....	395
<i>Diehl, C. L.</i> , Emulsions.....	180
Preparations of Hypophosphites with Iron.....	437
Digitalis preparations, relative strength of.....	164
reaction with tannin.....	133
<i>Doench, C. A. T.</i> , Resina Scammonii.....	545
<i>Doryphora decemlineata</i> , vesicating principle in.....	550

<i>Dott, D. B.</i> , Conversion of Morphine into Codeine	470
Drugs, action of digestive ferments upon.....	533
effects of, on lactation.....	137
powdered, purity of.....	527, 635
<i>Edwards, H. M.</i> , Bark of <i>Fraxinus Americana</i>	283
Egg albumen, diastatic ferment in.....	302
Electuary, laxative, Ferraud's.....	308
Elixir, blackberry, formula for.....	312
calisaya, with hypophosphites.....	440
and strychnine.....	441
hypophosphite of iron.....	440
and quinine.....	440
and strychnine.....	440
logwood, formula for.....	312
<i>Emich, F.</i> , Reaction of Bullock's Bile.....	599
Emulsion, castor oil.....	184
codliver oil, concentrated and simple.....	182
with calcium lactophosphate.....	184
phosphate	388
hypophosphites.....	179, 183
laminaria.....	128
phosphates.....	184
wild cherry bark	184
Emulsions with quillaia.....	179
Enema of peptones, preparation.....	61
Enzymes in pancreas.....	24
Ergot, estimation in bread and flour.....	225
preservation of	242
<i>Erimocarpus setigerens</i> , properties of.....	11
Ether, detection of water in.....	284
from alcohol and methylated spirit, value of.....	553
separation of.....	355
<i>Eucalyptus</i> species, products.....	346
<i>Eugenia Cheken</i> , description and use of.....	351
microscopical examination.....	461
species, products of.....	348
<i>Euphorbia Lathyris</i> , properties of seeds.....	72
<i>Euphorbium</i> , origin and use of.....	303
<i>Everhart, E.</i> , see <i>Leeds, A. R.</i>	
Extractum absinthii contains potassium chloride.....	310
aconiti prepared from <i>Acon. paniculatum</i>	334
relative strength and dose of	565
aconiti folior. fluid., relative strength and dose of.	563
aconiti radic. fluid., relative strength and dose of.....	564
celery, flavoring.....	66
ergotæ ammoniatum, preparation of.....	534
fraxini americanæ, fluid and solid.....	284
glycyrrhizæ, adulterated with extr. logwood	192
examination of commercial.....	7
guaranæ fluidum, proper menstruum for.....	524
herbs for flavoring soups, etc.....	66
hydrastis fluidum, commercial, alcoholic strength of.....	526
krameriæ, preparation by different processes.....	117
malti, commercial, diastase in.....	524
vanillæ, preparation.....	65, 280
<i>Fairthorne, R. F.</i> , Assaying cinchona alkaloids.....	548
new displacement apparatus.....	236
pharmaceutical notes.....	311
practical notes.....	65

Ferrie acetate, reactions of.....	487
ammonio-citrate, composition of.....	455
hypophosphite, preparation of.....	438
iodate, properties of.....	417
oxide, behavior to ozone.....	618
soluble, preparation of.....	371
peptonate, ammoniacal, preparation of.....	62
Ferrous borotartrate, albuminated, preparation of.....	372
iodide, saccharated, preparation of.....	116
phosphate, oxidation of.....	208
sacro-carbonate, history of.....	62
sulphate, preservation of.....	14, 307
Ficus elastica, analysis of leaves.....	515
Flax, water-retting of, influence upon fish-life.....	480
Flour, estimation of ergot in.....	225
Flowers, Hiland, Chia seed.....	227
Fluid extracts, precipitates in, causes of.....	528
Forbes, Jno. D., Doryphora decemlineata.....	550
Forest convention.....	94
Forests, effects of removing, from mountains.....	82
Forney, C. M., Action of iodine pentabromide upon volatile oils.....	546
France, pharmaceutical study.....	469
Frankenia grandifolia, histological examination of.....	514
Fraxinus americana, alkaloid in bark.....	99
bark, description, yield of extract and analysis.....	282
Früh, Alfred, Syrupus ferri protochloridi.....	129, 162
Fucus species contain iodine.....	125
Galactin, origin and properties of.....	289
Galangal, yellow coloring matters of.....	288
Galangin, properties of.....	288
Galls from willows, constituents of.....	457
percentage of tannin in.....	388
Gastric ferment, soluble and insoluble.....	508
Gautier, A., Soluble and insoluble gastric ferment.....	508
Geissospermine, reactions of.....	392
Gelsemine, preparation of.....	337, 390
properties of.....	342
reactions of.....	342, 391
Gelsemium, forensic-chemical determination.....	389
poisoning by.....	243
Gentianose, preparation and properties.....	177
Gentiopierin, non-crystalline, from dry gentian.....	526
Geranium, amount of tannin in.....	388
Germany, pharmaceutical study in.....	317
Gerrard, A. W., Incompatible mixture.....	20
Geum album, use and dose of.....	472
Geum, amount of tannin in.....	388
Gibson, A., Compound solution of hypophosphites.....	120
Gilmour, W., Syrup of hydriodic acid.....	239
Glacialin, composition of.....	629
Globularia Alpum, constituents of leaves.....	625
Gloriosa superba, constituents of leaves.....	301, 359
Glycerin, estimation of.....	516
reaction with borax.....	537
with iron salts.....	537
with phenol.....	517
Glycerite of birch tar, preparation of.....	454
of bismuth, preparation.....	116
Glyceritum acidi borici, formula. (See also Boroglyceride).....	528
Glycerol of myrrh and borax, formula.....	312

Gold salts, commercial, purity of	535
<i>Goldschmidt, G.</i> , Succinic acid in bark of <i>Morus alba</i>	456
<i>Gossypium barbadense</i> , use of leaves as galactagogue.....	595
<i>Gouliea decorticans</i> , use of.....	134
<i>Granatæ</i> , properties of.....	345
<i>Granatum</i> , tannin in bark and rind.....	388
<i>Grandval, A.</i> , See <i>Lajoux, H.</i>	
Great Britain, Pharmaceutical Society of.....	92, 141, 333, 634
pharmaceutical study in.....	314
Greece, pharmaceutical study	467
<i>Green, Howard L.</i> , <i>Osmorrhiza longistylis</i>	149
<i>Greenish, T. Edward</i> , Extraction of fat from <i>nux vomica</i>	170
<i>Guacamacha</i> , alkaloid in and use of	387
<i>Guarana</i> , yield of caffeine from.....	523
<i>Guava</i> , origin and use of.....	349
<i>Gum arabic</i> , influence of, in chemical reactions.....	602
insoluble	8
Gums, natural, vegetable test for (orcin).....	218
<i>Guncotton</i> , preparation of.....	622
<i>Gurjun balsam</i> , see oil of <i>dipterocarpus</i> .	
Hæmatein , new compounds of.....	398
<i>Hæmatoxylon</i> , amount of tannin in.....	388
<i>Hentze, C. H.</i> , <i>Tinctura arnicæ</i>	435
Hair dye, bismuthic, preparation of.....	551
<i>Harmanson, J. H.</i> , <i>Stillingia sylvatica</i>	386
<i>Helleborus niger</i> and <i>H. viridis</i> , recognition of.....	303
<i>Hesse, O.</i> , Constituents of <i>quebracho bark</i>	366
methylethers of morphine.....	412
note on <i>cinchona alkaloids</i>	361
<i>Heteromeles arbutifolia</i> , constituents of leaves.....	175
<i>Heuchera</i> , amount of tannin in.....	388
<i>Hewetson, H. B.</i> , Value of ether from alcohol and methylated spirit.....	553
Holland, pharmaceutical study in.....	376
<i>Holmes, E. M.</i> , False <i>belladonna root</i>	234
root of <i>Aconitum Napellus</i> and other species.....	555
<i>Homatropine</i> , chemistry of.....	145
use of, in phthisis.....	426
<i>Homoquinine</i> , origin and properties.....	364
Honey, artificial, detection of.....	356
Hops, amount of tannin in.....	388
Household remedies versus nostrums.....	205
<i>Howard, J. Eliot</i> , Red bark.....	28
<i>Husemann, Th.</i> , <i>Ptomaines</i> , significance in toxicology.....	152
<i>Hydrochinon</i> , properties of.....	81
<i>Hydrocinchonidine</i> , properties of.....	361
<i>Hydroconchinine</i> , properties of.....	362
<i>Hydrogen peroxide</i> , composition of.....	215
<i>Hydroquinidine</i> , preparation and properties.....	401
<i>Hydroquinine</i> , properties of.....	363
<i>Hyosecyamine</i> , crystallized, preparation.....	226
(<i>Duquesnel</i>).....	465
<i>Hyscine</i> , effects of.....	630
<i>Hypophosphites</i> , compound solution, preparation of.....	120
<i>Hypoquebrachine</i> , preparation and properties.....	367
Illinois Pharmaceutical Association	96, 588
Indiana State Pharmaceutical Association	326, 431
Indianapolis Pharmaceutical Association	204
<i>Infusum laminariæ</i>	127
<i>Ink</i> , cheap logwood.....	308

Ink, good nut gall.....	313
Inula britannica, characters of flowers.....	458
Iodine, camphorated chlorotannate.....	425
Iodoform, aqueous solution of, preparation.....	373
compound with strychnine.....	119
correctant of odor.....	119, 373
detection of small amount of.....	159
effects of, insanity.....	425
gauze, Woelfer's preparation of.....	374
pliable, preparation of (see Pencils).....	89
solubility of in different menstrua.....	374
Iowa College of Pharmacy.....	473
Pharmaceutical Association.....	204, 590
Ireland, pharmaceutical study in.....	316
Iron, administration of.....	86
direct coppering of.....	396
salts, reaction with glycerin.....	537
see also Ferrum.	
Isocholesterin, properties of.....	626
Italy, pharmaceutical study.....	466
Ixora Bandhuca, uses of.....	301
Jaborandi contains two alkaloids.....	17
Jacaranda oxyphylla, properties of leaves.....	136
procera, constituents of leaves and bark.....	134
histological examination of leaves.....	513
subrhombea, properties of leaves.....	136
Jalap, analysis of root and powder.....	385
testing of tubers.....	463
Jambolana, use of.....	351
Jambosa species, products of.....	350
Jasminum Betchei, a new species.....	73
Kachler, J., and F. V. Spitzer, Dibromo-camphors and monobromo-camphor.....	509
Kampferid, properties of.....	288
Kansas Pharmaceutical Association.....	478
Karlsbad sprudel salt, composition of.....	408
Kennedy, G. W., Oleum betule lentæ.....	49
Extract of vanilla.....	280
Kentucky Pharmaceutical Association.....	428, 590
Kissling, R., Combustion products of tobacco.....	492
Koussou, amount of tannin in.....	388
Kramer, Chas. F., Astringent drugs.....	388
Krameria, amount of tannin in.....	388
Kurchicine, properties of.....	301
Lac ossium, formula for.....	116
Lajoux, H., and A. Grandval, Salicylates of mercury.....	304
Lambert, John A., Ammonium iodide.....	482
Laminaria species contain iodine.....	125
uses of.....	126
Lancaster County, Pa., Pharmaceutical Association.....	203, 261
Landrin, E., Ammoniacal citrates.....	455
Laurus caustica, bark of, description and constituents.....	73
Lead salts, behavior of, to ozone.....	618
Le Bon, G., Volatile products of putrefaction.....	581
Lecythideæ, properties of.....	345
